## ANZ-Roy Morgan Consumer Confidence and inflation expectations

Last week (27-28 Jul)	Weekly change, %	Four-week average	Monthly average since 1990	Inflation expectations (four-week ma)
118.5	1.9%	117.1	113.1	4.1%

Data collected last weekend (Saturday and Sunday), based on around 1,000 face-to-face interviews. Not seasonally adjusted. Further data history on page 6.

## ANZ Senior Economist, Felicity Emmett, commented:

"Confidence gained for the second straight week, and is now well above its long run average. The federal government's tax refunds for low- and middle-income earners look to be boosting sentiment, particularly in the case of the 'time to buy a household item' subindex. RBA Governor Lowe's statement that interest rates would remain low for an extended period is also likely to have helped support confidence, pushing equities to 12-year high."
