## ANZ-Roy Morgan Consumer Confidence and inflation expectations

Last weekend (16-17 Jan)	Weekly change, %	Four-week average	Monthly average since 1990	Inflation expectations (four-week ma)
108.7	-0.2%	109.5	112.6	3.6%

This weekly ANZ-Roy Morgan Australian Consumer Confidence Rating is based on 1,504 interviews conducted online and over the telephone on the weekend. Not seasonally adjusted. Further data history on page 6.

## ANZ Head of Australian Economics, David Plank, commented:

Consumer confidence was close to unchanged over the weekend, consolidating at an above neutral level – though below the long-run average. Sentiment is higher than a year ago, but the comparison reflects the impact of the bushfires in late 2019 and early 2020. Within the detail, ‘future financial conditions’ stood out with a gain of 2.4% and remain well above the long-run average. Inflation expectations have pulled-back a touch from their recent high.
